Office Action Summary

Art Unit: 2645

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321© may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

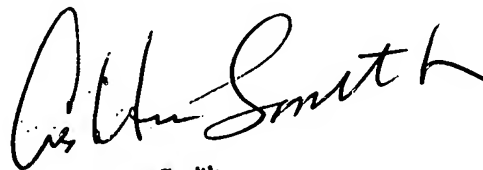

Claims 11-20, 23-36, 47-56, 59-72 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. 6633763. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the instant application could have easily been incorporated with the claims of the patent .

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Todo et al & Martensson et al. .

Art Unit: 2645

Neither Todo nor Matensson teach the monitoring or receiving of call initiation signals before producing the list of available telephone numbers. In Todo and Martensson, the user scrolls down thru the list of telephone numbers before selecting the number (s)he wishes todial, whereas in applicant's device the user starts to dial the number first and then a list of numbers stored in database will become avialble foe the user to choose from.
